## Editorial

Publications are one of the media through which scholarly endeavours are disseminated to colleges. They are also an avenue for multi-disciplinary exchange of ideas that is a prerequisite for high quality knowledge construction and research. One cardinal mission of any institution of higher learning is the construction and dissemination of the highest quality knowledge. This is achievable through the publication of peer-reviewed articles.

It is in light of this that the Faculty Conference Committee of the Faculty of Education, Ahmadu Bello University, Zaria is committed to publishing the quality papers presented in this year's conference in this special conference proceeding. This is so as it serves as a valuable manual for teaching, research and dissemination of high quality knowledge to the wider society and Africa at all.

I therefore recommend this Conference Proceedings as a teaching and learning companion for all categories of students in all tertiary institutions of learning. I also assure our readers that this proceeding is a valuable learning resource.

Thank you.

**Prof. Tijjani Abubakar**
Editor-in-Chief.

# Contents Pages

***WELCOME ADDRESS DELIVERED BY THE DEAN OF EDUCATION; PROF. H. I. BAYERO ON THE OCCASSION OF FACULTY PRE-CONFERENCE/CONFERENCE, 24TH - 28TH JULY, 2023***

His Excellency, the Executive Governor of Katsina State, Mal. Dr. Dikko Umar Radda, Distinguished Chairman of the Occasion, Dr. Hamid Bobboyi, Chief Host, Prof. Kabiru Bala, Vice Chancellor, Ahmadu Bello University, Zaria, the Key Note Speaker, Prof. Faruk Haruna Abdulrashid, Royal father, His Highness Alhaji Ahmed Nuhu Bamalli, the Emir of Zazzau, Special Guest of Honor, Lead Paper Presenters, Dean of Faculties, Heads of Department, Conference Committee Members, Distinguished Colleagues of Academia, gentlemen of the press crew, and my dear students. I welcome you all to the 2023 Faculty of Education Pre-conference/Conference.

The theme of this year's conference titled 'Emerging Educational Innovations, Creativity and Research for Transformation of Teaching and Learning in the New Global Realities'. .
It has been observed by scholars that several education reforms, ordinance and education commission in Nigeria has not yielded the desired outcome toward the SDGs attainment of sustainable education for all by the year 2030. This is partly due to inconsistency in education policies and programmes by successive governments, insecurity, insurgency and high rate of out of school children and school dropout, incessant strikes in tertiary institutions due to poor infrastructure, poor wages and remuneration amongst others.

This therefore points to the fact that our education system needs to be repositioned for access, quality and peaceful co-existence as a nation. Recall further that Data from UN MDG report 2010 revealed that the depth of poverty around the world is diminishing universally. Progress toward achieving Universal primary education for girls and boys globally has improved yet much is expected of primary school aged children out of school.

Education in Nigeria is instrument par excellence for effecting national security and socio-economic development. Government has stated that for the benefits of all citizens, the country's educational goal shall be clearly set out in terms of relevance to the needs of the individual and those of the society, inconsonance with the realities of our environment and the modern world (National policy and Education, 2004).

An overview of successes recorded so far toward the attainment of MDGs objective by the year 2015 in areas of reducing poverty and hunger, achieving Universal Primary Education, promoting gender equality and women empowerment, reduce child mortality and improve maternal health, combating deadly diseases, ensure environmental sustainability and development of global partnership for security and socio-economic development leaves much to be desired.

In order to achieve overall sustainable growth in all spheres of life, education has always played a leading role. Therefore, this conference/pre-conference 2018 is expected to be an assemblage of academicians drawn from across the globe and Nigeria in particular to deliberate on the best ways toward repositioning our education sector for access, quality and peaceful co-existence among citizenry.

Your recommendations and the communiqué of this year's conference will be given its wide publicity through conference publications and distinguished personalities toward rapid transformation of the sector for access, quality, and peaceful co-existence amongst the citizen of this nation and the globe at large.

Thanks for coming. I wish you a successful deliberation.
